MAESTRALE, LIBECCIO, SCIROCCO: THE WIND VASES

TRANSPARENT GREEN BLOWN GLASS

“The wind does not move. The flag does not move. It is the mind that moves”.
(Zen adage)

The glass effect is called “optical” because of its facets which produce a particular brightness and transparency. The preciousness is emphasized by the combination of sinuous forms and by the green colour peculiar to many Produzione Privata creations. The dimensions are important.
