FATA AND FATINA

BLOWN GLASS WITH WHITE LAYERED SATIN FINISH, GREY PAINTED METAL

◀ 2

◀ 1

“Tinker Bell, why can’t I fly?”

“Peter Pan, all you have to do is think one happy thought and you’ll fly like me”.

James Matthew Barrie, Peter Pan

The large and small lamps, Fata and Fatina, are made from a single piece of blown glass. The stem and diffuser combine to form an overall volume of light. The circular, painted metal base holds in place the body of satin-finish blown glass.

Ph. Michele De Lucchi, Luca Tamburlini / Polifemo fotografia (still lifes on white background)

Material / Finishings

Diffuser:
blown glass
 - white layered satin finish
