SEDIA 2007 NATURAL BEECH

◀ 1

“... and only by endlessly following the same road can it be discovered and saved from the blindness of habit”.
(Michele De Lucchi, 12 tales with little houses, 2005)

The 2007 chair is a revised version of the folding 2001 chair, reissued in the fixed version, where beech wood replaced the leather backrest and finishing of the seat, improving the level of comfort. The result is more basic, simple, inexpensive, but with the same functional and aesthetic qualities. Produced in natural beech wood.
